THROUGH THE SOUTH

The President on His Western Trip.

FIRST DAY FROM WASHINGTON.

Thousands of People Turn Out at the Stations Along the Route to Pay Respect to the Chief Executive of the Nation—His Reception at Knoxville, Tennessee.

ROANOKE, Va., April 15.—The presidential train arrived at this thriving town at 8:50 o'clock yesterday morning, having made the run from Washington on exact schedule time. There were no special incidents on the route.

Fifteen minutes were spent at Lynchburg for the purpose of shifting the train from the Richmond and Danville road to the Norfolk and Western. A large crowd was gathered at the station, but there was no demonstration. This was due to the early hour, 6:45 o'clock, and the fact that the president had not arisen.

Another brief stop was made at Blue Ridge, where a crowd gathered at the station and enjoyed the spectacle of the chief magistrate of their country and his family at breakfast. The reception at Roanoke was most enthusiastic. The president shook hands with many hundred people from the rear platform, and in response to repeated demands made a short speech. The entire population of the place seemed to have gathered at the station, and as many of them as could do so embraced the chance to shake hands with the president. Mrs. Harrison was presented with a handsome bouquet by Mr. and Mrs. Eddy.

At Bristol, Tenn.

BRISTOL, Tenn., April 15.—Fully 2,000 people assembled around the depot anxious to see the chief magistrate of the United States. He was met promptly at 2 o'clock by the reception committee from Johnson City, Knoxville and Bristol. Judge H. J. Wood of this city introduced him to the immense crowd who greeted him with vociferous applause. He spoke in a clear distinct voice for about fifteen minutes, and was frequently applauded. The special train pulled out promptly at 2:30 o'clock. Postmaster General Wanamaker also made a short address.

At Knoxville Tennessee.

KNOXVILLE, Tenn., April 15.—President Harrison has every reason to be gratified with his reception in Virginia and Tennessee. At nearly every hamlet along the line of the route groups of people waved handkerchiefs and hats as the train passed by. At Roanoke, Va., the train halted long enough to enable a crowd of people assembled at the station to shake hands with the president, and similar demonstrations were observable as the train passed Pulaski and Abingdon.

At Bristol the train halted on the Virginia side of the station. Large crowds had gathered in and about the station and the windows of the houses in the vicinity were filled with people. The president, while the crowd cheered, was escorted to the temporary platform by the local committee and was introduced by Judge Wood, of Bristol. Here the president spoke as follows:

"My fellow citizens: I have found not only pleasure but instruction in riding through portions of the state of West Virginia that is feeling in a very striking way the impulse of new development. It is extremely gratifying to notice that those hidden sources of wealth, which were so long unobserved and so long unused, are now being found, and that these regions once so retired, occupied by pastoral people, having difficult access to the centers of population, are now being rapidly transformed into busy centers of manufacturing and commerce.

"In the early settlement of this country immigrants poured over the Alleghenies and the Blue Ridge like waters over an obstructing ledge, seeking fertile and attractive farms of the great west. They passed unobserved these marvelous hidden stores of wealth, which are now being brought into use. Having filled the great basin of the west, they are now turning back to Virginia and West Virginia and Tennessee, to bring about development and production for which the time is ripe and which will surprise the world. It has not been long since every implement of iron, domestic, agricultural and mechanical, was made for you in other states. But now Virginia and Tennessee are stirring their energies to participate in a large degree in the mechanical production and in the great awakening of American commerce and American influence which will lift the nation to an influence among the nations of the world, never before attained.

"I am glad to stand for the moment among you; glad to express my sympathy with you in every enterprise that tends to develop your state and local communities; glad to stand with you upon one common platform of respect to the constitution and law, differing in our policies as to what law should be, but pledged with a common devotion to obedience to law as the majority shall by their expressions make it. I shall carry away from here a new impulse to public duty, a new inspiration as a citizen with you, of a country whose greatness is only dawning.

"May peace, prosperity and social order dwell in all your communities and the fear and love of God in every home."

The appearance of Mrs. Harrison in response to repeated calls brought out great cheers from the crowd.

At Johnson City, Jonesboro and Morristown short stops were made, and at each place the president made brief speeches to the crowds that gathered at the stations.

Knoxville gave the president a royal welcome. When the train rolled into the depot about 6 o'clock, the local

committees met, the party and escorted it about the city.

At 7 o'clock the party arrived at the hotel where an immense crowd had gathered to hear the president make a promised address. When the enthusiasm that greeted his appearance subsided, the president said:

"My fellow citizens: It gives me pleasure to visit this historical city—a city that has given to the country many men who have been eminent in its councils and have brought to the nation they served and to the people who call them into public service, imperishable honor. I am glad to visit east Tennessee, the scene of that early immigration and of those early settlements by men who for vigor of intellectual strength of heart and devotion to republican principles, were among the most conspicuous of the early pioneers of the west and southwest. I am glad to know that those traditions of liberty, that devotion to the cause of liberty, devotion to the cause of the Union which manifested itself in the early contributions of Tennessee to the armies that went out for the defense of the homes of the north and west abides still in the valleys and on the mountains of the Alleghenies. You are feeling a material development that is interesting and pleasing to all your fellow-citizens of all states. I beg to say to you that whoever supposes that there is anywhere in the northern states any calumny of this great material progress which the south is making wholly misconceives the friendly heart of the people of the north.

"It is my wish as I am sure it is of all with whom I associate in political life, that the streams of prosperity in the south may run harkful; that in everything that promotes prosperity of the state security and comfort of the community and the happiness of the individual home, and your blessings may be full and unstinted. We live in a government of law. May every prosperity attend you. May this ground, made memorable by one of the most gallant assaults and by one of the most successful defenses in the history of war, never again be stained by blood. But may our people, in one common love of one flag and one constitution in a common and all prevailing fealty to great principles of our government, go on to achieve in material wealth and social development, in intelligence, in piety, in everything that makes a nation great and a people happy, all that the Lord has in his mind for a nation that he has conspicuously blessed."

Last night the president and Mrs. Harrison, and most of the members of the party, attended a large reception at the residence of Col. E. M. Sanford.

GENERAL SPINOLA'S DEATH.

His Remains Will Be Taken to New York for Interment.

WASHINGTON, April 15.—The death of Gen. Spinola at 1:30 yesterday morning was a surprise as he had been reported the previous day as improving. During the day he had gained somewhat in strength, and his room was changed. After 10 o'clock Monday night the general suddenly became worse. He weakened rapidly and soon became unconscious. After a period of delirium he fell into a deep sleep, during which he came peacefully and as gently as the dropping of a leaf. Around his bedside at the hour of his death were: Mrs. Spinola, Hon. Felix McLeskey, Drs. Hamilton and Magruder and the nurse. The remains of the general will be taken to New York on a special train over the Baltimore and Ohio road. Sergeant-at-arms Holmes, of the house, will have charge of the remains until they reach New York, where they will be taken charge of by friends and conveyed to the Church of the Immaculate Conception on Fourteenth street, where they will lie in state until Thursday, when the funeral services will be held. The interment will be at Greenwood. There will be no services in this city.

Labor Troubles in Boston.

BOSTON, April 15.—There is a probability of another war between the Journeymen Freestone Cutters' union and the Progressive Freestone Cutters' union, which was supposed to have been settled when the lock-out was declared off last September. Yesterday thirteen cutters in the employ of Norcross Brothers, at work on the new public library building, struck work in preference to joining the Progressive union, and it is believed the strike will spread, and all trade unionists seriously object to the methods of the Progressive union. It is charged that the employers are trying to force the men to join the Progressive union and the Journeymen in the end to bring the matter before the mayor and the board of aldermen.

Found Dead in the Cellar.

SAN FRANCISCO, April 15.—About two weeks ago a woman whose name is unknown, moved into a store at 1204 Stockton street, and yesterday her dead body was found in the cellar underneath the store. The door which is the only entrance to the cellar, was covered with a heavy stove. There are no wounds on the body but the supposition is that the woman was murdered. On a photograph of the dead woman was found the name "Mrs. Bolle, of Denmark." The neighbors say that on Monday the woman had a violent quarrel with a young man who visited her. The police are investigating the case.

Such is Life in the Nation.

PARIS, Tex., April 15.—A few nights ago, on the Blue river, in the Choctaw nation, a crowd of drunken men went to church, and fired of their pistols and ran everyone away. One of the crowd, a negro woman, was shot and killed. The church was then burned. The officers are hunting the men.

Collieries Shut Down.

MAHONNY CITY, Pa., April 15.—Orders have been received here to suspend indefinitely all operations at the Elmwood and Schuylkill collieries, which belong to the Philadelphia and Reading Coal & Iron Company. Over 800 men are thrown out of employment.

ENFORCING THE LOTTERY LAW.

An Important Arrest in Texas by Post-office Inspectors—Land Decision—Secretary Foster Gone to New York. Trouble Fanned Over Land Opening for Settlement—Other Dispatches from Washington.

WASHINGTON, April 15.—The chief postoffice inspector has received telegrams from inspectors Maynard and Cline whom he dispatched a few days since to El Paso, Tex., that they had just arrested Nicholas Leibheimer, manager of the Mexican International Banking Company of Juarez, who lives in El Paso. The inspectors caught Leibheimer in the act of mailing a quantity of lottery letters and circulars from El Paso. A preliminary examination will be held on the 22d instant.

In disregard of the recent anti-lottery act, this lottery has been flooding the United States with lottery literature, and in order to save postage, which is five cents on each letter if mailed in Mexico, their practice has been to mail their lottery letters and circulars in El Paso at United States rates, which is two cents. This is the same coin any of which Gen. John S. Mosby is the commissioner. It is believed at the postoffice department that the arrest of the United States agent of this lottery company will have a tendency to stop the wholesale mailing of interdicted matter at El Paso.

Secretary Foster Gone to New York.

WASHINGTON, April 15.—Secretary Foster, Assistant Secretary Spaulding, Solicitor E. J. Burn and Private Hendley left Washington at 5 o'clock yesterday for New York. The party will remain in New York during the remainder of the week. Secretary Foster and Assistant Secretary Spaulding will devote considerable time to immigration matters and on Thursday will visit the immigration station at Ellis island. It is the desire of Secretary Foster to have the new immigration law, which went into effect April 1, strictly enforced and with this end in view Superintendent Webb will be given verbal instructions as to the department's construction of its various sections. Secretary Foster will also confer about impending changes in the custom house and appraiser's office.

Land Decision.

WASHINGTON, April 15.—Assistant Secretary Chandler, of the interior department, yesterday reversed the decision of the commissioner of the general land office in the case of Silas M. Epps vs. William H. Newcomb, a homestead entry held for cancellation, involving a tract of land in the Humboldt, Cal., land district. The decision says that the land commissioner erred when he affirmed the appeal of Newcomb, and awards the title to Epps. The assistant commissioner has affirmed the decision of the land office in the case of W. E. Olmstead vs. Alice M. Milligan, a contested timber land entry in the Humboldt district, holding that the latter is legally entitled to the land.

Monetary Disturbance.

WASHINGTON, April 15.—Assistant Treasurer Whelpley yesterday received a telegram from Boston to the effect that Boston bankers fear a monetary disturbance, if the share of Massachusetts' direct tax is paid in silver certificates. The bankers say that Maine's direct tax, amounting to \$357,000, was paid in this currency and they fear that the \$700,000 to which Massachusetts is entitled will also be so paid. They express a preference for gold notes. Assistant Treasurer Whelpley replied that the amount due Massachusetts would be paid in the currency most convenient to the government, and the sub-treasury at Boston will be so directed.

Land Trouble Feared.

WASHINGTON, April 15.—Commissioner Carter of the general land office has received several telegrams from residents near the lands in northern Wisconsin which will be open to homestead settlement next Saturday confirming the published statement of anticipated trouble there. The commissioner said that so far no action had been taken by him to prevent trouble, but if the case assumed a serious aspect he would take steps to carry out the law and prevent any hostile demonstrations.

Cadet Examination.

WASHINGTON, April 15.—By the direction of the secretary of war a board of medical officers have been appointed to meet at West Point, N. Y., May 1, 1891, or as soon thereafter as practicable to examine such cadets of the United States Military Academy as have been granted leave of absence until that date on account of physical disability, and to report upon their physical fitness to continue with the corps of cadets.

Military Orders.

WASHINGTON, April 15.—Procter has consented to allow Capt. Thomas Woodruff to act as aid to Gen. Ruger, commander of the division of the Pacific until the first of July. Capt. Woodruff has been Gen. Ruger's aid for some time and was detached from this duty to accompany Secretary Procter on the western trip. He was ordered to the division of the Pacific at Gen. Ruger's request.

Mrs. Halford Seriously Ill.

WASHINGTON, April 15.—Mrs. Halford, the wife of Private Secretary Halford, who recently returned to Washington from Florida in ill health, is reported seriously ill. Her friends and physicians feel much alarmed about her.

VISALLA, Cal., April 15.—About 10:30 last night a sharp shock of earthquake occurred here.

RIOUOUS STRIKERS.

Trouble Again Breaks Out in the Coke Region.

MOUNT PLEASANT, Pa., April 15.—Flick's coke works at Trotter, were raided yesterday afternoon. A mob of strikers threw bricks and stones through the doors and windows of the company's houses, demolishing everything possible. The first attack was made Monday night, but the mob were frightened away by the guards. One woman was seriously injured. The attack was renewed yesterday, and considerable damage was done. There are 400 coke ovens at Trotter, and this week thirty-five men have been working there. Additional guard have been sent to the assistance of those already on duty.

Forty-five warrants were sworn out yesterday afternoon for the apprehension of the rioters. The impression is general that at the backbone of the strike has been broken. The strikers are generally in need of food and unless they secure relief promptly, there seems little doubt that there will be a stampede in the strikers' ranks very soon. This opinion was expressed yesterday by one of the labor leaders who was present at the strikers' convention at Scottsdale last Saturday. There were eight, seven men at work at Trotter yesterday.

General Superintendent Lennan said last night: "I expect to have 1,000 men at work to-morrow." One hundred and nine men were reported at work at Leisnering No. 2 yesterday, and 105 men were working at Morewood.

A mass-meeting of strikers was held at Morgantown yesterday.

While the meeting was in progress the sheriff evicted the family of Joseph Egger, master workman of the local assembly. The strikers rallied and carried Egger's goods back into the cottage. No one was injured. The strikers yesterday evening replaced the furniture of the family evicted yesterday at Summit back into the house.

Jail Delivery Frustrated.

DAYTON, O., April 15.—A jail delivery was narrowly averted here by the confession of one of the prisoners in the scheme. Kollo Teit, John Smalley, Frank Moore and J. Flynn, all sentenced to the penitentiary yesterday for burglary and larceny and horse-stealing, had been sawing on the steel bars of the corridor until they had cut sixteen feet off. The cuts made by the fine saw had been filled up with soap. Kollo Teit weakened and told the sheriff. The men were placed in the dungeon and the turnkey discharged for negligence.

Hot Water-Tank Collapsed.

NEW YORK, April 15.—A hot water-tank in the yards of the Empire oil works near Newton collapsed Monday evening and severely injured Patrick Barry and Frank Bowen, who were at work repairing it. The two men were horribly scalded before they were rescued. They were taken to St. Catherine's hospital where it was said that Barry was fatally injured and that Bowen's chances for recovery were very slight. Both men are married.

Fire in Albany, New York.

ALBANY, N. Y., April 15.—At 2 o'clock this morning the first floor, occupied by A. S. Fullman, stationery, and J. Ackroyd, galvanized iron cornices and roofing, was deluged with water, both firms losing considerable. The second, third and fourth floors are occupied by the Brandow Printing company, and the upper stories are gutted. The building is owned by J. F. Taylor. It is impossible to estimate the loss at this hour.

House Demolished and Two Girls Killed.

PORTLAND, Ore., April 15.—Word has reached here from Lascater, Wash., of a terrible accident which occurred near the latter place Monday. A farmer named Holcomb had placed some giant powder in a stove. The powder exploded, demolishing the house and a stinging fire to the ruins. Two daughters of Holcomb, aged 14 and 16 years respectively, were instantly killed, and Holcomb and his wife were seriously, if not fatally injured.

Prisoner Pardoned.

COLUMBUS, O., April 15.—The governor yesterday pardoned John C. Harter, convicted in 1882 by the Jefferson county courts for murder in the second degree and sentenced to the penitentiary for life. Harter killed a man named Edward Harter in a drive at Steubenville. The deceased was under indictment for murder in the second degree, and was recognized as a dangerous person. Both were intoxicated.

Ravisher Arrested.

NEW ALBANY, Ind., April 15.—Frank Robertson, aged 30, was arrested yesterday, charged with criminally assaulting the 5-year-old daughter of Charles Brewer. He fled the city after committing the assault, but ventured back and was captured. He was identified by the little girl, who is in a critical condition, and it is thought will die. Robertson does not deny the charge.

Stable and Stock Burned.

GALION, O., April 15.—Fire was discovered at 3 o'clock in the stable of William H. Raymond and destroyed everything, including thirty-three cattle, twenty-eight milk cows, one fine blooded bull, valued at \$300, and four calves. The entire fire loss is estimated at \$1,800; no insurance. It is generally believed to be the work of some enemy.

Died of La Grippe.

DANVILLE, Ind., April 15.—John W. Estep, one of the wealthiest men in Danville, died yesterday of complications arising from la grippe. He leaves a wife and one son and several grandchildren. Mr. Estep was a self-made man, and was a large owner of business property in this city.

ENGLISH, Ind., April 15.—A strange fatality is affecting horses in the north-western part of this county, and a number of farmers have suffered losses. The disease is described as an abnormal growth or swelling of the tongue, throat and glands.

Progress.

It is very important in this age of vast material progress that a remedy be pleasing to the taste and to the eye, easily taken, acceptable to the stomach and healthy in its nature and effects. Possessing these qualities, Syrup of Figs is the one perfect laxative and most gentle diuretic known.

She will be assisted by Misses Verity and Marsh, vocalists, and by Miss Rodgers, a fine elocutionist. Misses Wheeler, Verity and Marsh are all pupils of the Conservatory of Music, and the Cincinnati papers compliment their singing very highly. The entertainment promises to be a thoroughly enjoyable one. Admission, 25, 35, 50 cents.

"Novels and Novel Reading."

Rev. C. S. Lucas' lecture on "Novels and Novel Reading" attracted an immense audience of Maysville's best people to the Christian Church last night. All denominations were represented. Books, he said, were in a sense ghosts of their writers—they contained the animus of their authors. He then referred in glowing terms to the great value of good books. While all novels are not bad, yet most of them are—they are trashy and vile, and there is no good in them. Many of them were written by vicious men and women—men and women who trampled upon all the laws of decency and society. Respectable people of Maysville, he declared, would bar their doors against many of the leading novelists, and yet the books written by such authors are found on the center tables and in the libraries of most homes. Dickens stood at the head of fiction writers, yet Dickens was a rake. He never portrayed the character of a gentleman in any of his works. Among women novelists the speaker said he supposed George Sand and George Elliott stood at the head of the list. Sand was one of the most vicious characters that ever lived. She cursed, smoked tobacco, chewed tobacco, dressed as a man and violated every law of decency. She was so vile that even the courtesans of Paris would have nothing to do with her. Elliott was but little better.

She believed there was no God, no heaven. She, too, trampled upon all the laws of decency, and sought to destroy the sacred relations of marriage, and the home circle.

The speaker then talked of novel reading. If people would read novels let them select good ones, and it would be well to read twenty other books to one good novel. The novel reading habit is a pernicious one. It incapacitates one for work, stimulates the passions and cultivates the lower side of the human nature. He closed by reading from such men as Talmage, Beecher, John Lathrop Motley, George Augustus Sala and others, all of whom denounce the novel reading habit as most pernicious and hurtful.

The closest attention was paid the speaker throughout. Next Tuesday night he will lecture on "Theaters and Theater-going."

THE NEW CONSTITUTION.

What the Preamble and Bill of Rights Contain—Let the People Read.

PREAMBLE.

We, the people of the Commonwealth of Kentucky, grateful to Almighty God for the civil, political and religious liberties which we enjoy, and invoking the continuance of those blessings, do order and establish this constitution.

BILL OF RIGHTS.

That the great and essential principles of liberty and free government may be recognized and established, we declare that:

Section 1. All men are, by nature, free and have certain inherent and inalienable rights, among which may be reckoned:

First—The right of enjoying and defending their lives and liberties.

Second—The right of worshipping Almighty God according to the dictates of their consciences.

Third—The right of seeking and pursuing their safety and happiness.

Fourth—The right of freely communicating their thoughts and opinions.

Fifth—The right of acquiring and protecting property.

Sixth—The right of assembling together in a peaceable manner for their common good, and of applying to those invested with the power of government for redress of grievances or other proper purposes, by petition, address or remonstrance.

Seventh—The right to bear arms in defense of themselves and of the State, subject to the power of the General Assembly to pass laws to prevent persons from carrying concealed arms, shall not be questioned.

Section 2. Absolute and arbitrary power over the lives, liberty and property of free men exists nowhere in a republic, not even in the largest majority.

Section 3. All men, when they form a social compact, are equal; and no grant of exclusive, separate public emoluments or privileges shall be made to any man or set of men, except in consideration of public services; but no property shall be exempt from taxation except as provided in this Constitution; and every grant of a franchise, privilege or exemption shall remain subject to revocation, alteration or amendment.

Section 4. All power is inherent in the people, and all free governments are founded on their authority and instituted for their peace, safety and happiness, and the protection of property. For the advancement of these ends, they have at all times an inalienable and indefeasible right to alter, reform or abolish their government in such manner as they may deem proper.

Section 5. No preference shall ever be given by law to any religious sect, society or denomination; nor to any particular creed, mode of worship or system of ecclesiastical polity; nor shall any person be compelled to attend any place of worship, to contribute to the erection or maintenance of any such place, or to the salary or support of any minister of religion; nor shall any man be compelled to send his child or children to any school to which he may be constitutionally opposed; and the civil rights, privileges or capacities of no person shall be taken away, or in any wise diminished or enlarged on account of his belief in any religious tenet, dogma or teaching. No human authority shall, in any case whatever, control or interfere with the rights of conscience.

Section 6. All elections shall be free and equal.

Section 7. The ancient mode of trial by jury shall be held sacred, and the right thereof remain inviolate, subject to such modifications as may be authorized by this Constitution.

Section 8. Printing presses shall be free to every person who undertakes to examine the proceedings of the General Assembly or any branch of government, and no law shall ever be made to restrain the right thereof. Every person may freely and fully speak, write or print on any subject, being responsible for the abuse of that liberty.

Section 9. In prosecutions for the publication of papers investigating the official conduct of officers or men in public capacity, or where the matter published is proper for public information, the truth thereof may be given in evidence; and in all indictments for libels the jury shall have the right to determine the law and facts, under the direction of the court, as in other cases.

Section 10. The people shall be secure in their persons, houses, papers and possessions from unreasonable search and seizure; and no warrant shall issue to search any place, or seize any person or thing, without describing them as nearly as may be, nor without probable cause supported by oath or affirmation.

Section 11. In all criminal prosecutions the accused has the right to be heard by himself and counsel; to demand the nature and cause of the accusation against him; to meet to the witnesses face to face, and to have compulsory process for obtaining witnesses in his favor. He can not be compelled to give evidence against himself, nor can he be deprived of his life, liberty or property, unless by the judgment of his peers or the law of the land; and in prosecutions by indictment or information, he shall have a speedy public trial by an impartial jury of the vicinage; but the General Assembly may provide by a general law for a change of venue in such prosecutions for both the defendant and the Commonwealth, the change to be made to the most convenient county in which a fair trial can be obtained.

Section 12. No person, for an indictable offense, shall be proceeded against criminally by information, except in cases arising in the land or naval forces or in the militia when in actual service in time of war or public danger, or by leave of court for oppression or misdemeanor in office.

Section 13. No person shall, for the same offense, be twice put in jeopardy of his life or limb, nor shall any man's property be taken or applied to public use without the consent of his representatives, and without just compensation being previously made to him.

Section 14. All courts shall be open and every person for an injury done him in his lands, goods or person or reputation shall have remedy by due course of law, and right and justice administered without sale, denial or delay.

Section 15. No power to suspend laws shall be exercised, unless by the General Assembly or its authority.

Section 16. All prisoners shall be bailable by sufficient securities, unless for capital offenses, when the proof is evident or the presumption great; and the privilege of the writ of habeas corpus shall not be suspended unless when, in case of rebellion or invasion, the public safety may require it.

Section 17. Excessive bail shall not be required, nor excessive fines imposed, nor cruel punishment inflicted.

The O'Keefe-Byrne Nuptials.

Mr. John O'Keefe and Miss Nellie C. Byrne were united in the holy bonds of matrimony at St. Patrick's Church this morning at 9 o'clock, the simple yet beautiful and impressive ritual of the Roman Catholic Church being performed by the venerable pastor Rev. Father Glorieux, who pronounced the happy couple man and wife.

Mr. O'Keefe is a young gentleman well and favorably known here, Maysville having always been his home. He has been connected with the wholesale and retail confectionery of Mr. John Wheeler for several years, and the large patronage enjoyed by this house is due, in a measure, to the industry and popularity of Mr. O'Keefe.

The bride is the youngest daughter of Mrs. Kate Byrne, of Sutton street, and is a most excellent young lady. She is petite, vivacious and a pleasant conversationalist.

The bride was attired in a handsome light gray traveling suit trimmed in camel's hair, with hat and gloves to match. The young couple left immediately after the marriage ceremonies were over for Cincinnati, where they will spend a few days after which they will take up their residence on Sutton street. They were the recipients of many handsome presents.

The ushers were Messrs M. A. Swift, John M. Hanley, T. J. Moran and M. P. Redmond.

THE BULLETIN joins with a large circle of friends in wishing the couple a long life and prosperity.

MR. CLARENCE MOORE, of West Virginia, who was here a few days ago on a visit to friends, has been appointed Revenue Agent for Kentucky and Tennessee, to succeed W. J. Wilmore. The office pays \$10 a day and expenses.

THE estimable wife of J. Frank Dye, nee Jennie Boyd, died April 6 at her home in the Highlands, overlooking Newport. Her husband and three children survive, who have the sympathy of Mason relatives and friends.

MRS. DR. VAL RILEY nee Mattie Clift, fourth daughter of Squire Clift of this county, an ideal christian woman—a life-long consistent Baptist, died of consumption, in Corsicana, Texas, March 26th, after a lingering illness. It is consoling to those in her native place to hear that loving and sympathizing friends in her new home helped to make her last hours peaceful and happy. She died as she prayed to, while asleep. The surviving family consists of her husband and three children. He is a cartarrh specialist of wide practice—a resident of this county some thirteen years ago. He joined the Baptist Church the Sunday before his wife died, which made her feel that she had accomplished the full mission of her earthly life.

River News.

Over 1,000,000 bushels of coal is en route from Pittsburg to Louisville.

Captain Chris Young has bought the Music for \$4,500 and will place her in the excursion business at Cincinnati.

The Keystone State and Sherley will pass down this evening and the Bostona late to-night. The Stanley for Charleston and Bonanza for Pomeroy will pass up to-night.

The introduction of steam in the navigation of the Mississippi river was first made in October, 1811, by Nicholas J. Roosevelt, who, under an arrangement with Fulton and Livingston, had a stern-wheel steamboat built in Pittsburg. It was of 200 tons burden, and was called the New Orleans. The hull was 138 feet long, thirty feet beam, and the cost of the whole was \$40,000, including engines. The boat carried sails on two masts.—Exchange.

MINER'S MAXIMS!

They who act without sufficient thought, will often fall into evil ways.

The truth of this maxim is seen in the following:

A certain gentleman of Maysville, who was in the habit of buying Miner's Shoes, noticed a "nice looking" shoe in a certain store window—in another city, apparently marked very low.

Astonished at such a low price, he bought the shoes, supposing he had obtained a great bargain. Soon afterwards discovering that the shoes began to spread and wear badly, he exclaimed, "I deserve all this for my folly in thinking that everything 'nice looking' must necessarily be good."

Ever had that experience? Good shoes never wear poorly; poor shoes never wear good.

The difference between good and bad is just the same as the source and mouth of a river—though closely allied, they can never become one and the same, as they denote the extremes.

Good shoes may be had at reasonable prices by patronizing MINER, who has been

A GHASTLY SIGHT.

Dead Bodies for a Potter's Field Dumped in the Public Highway.

CHICAGO, April 15.—John J. Neale, janitor of the Chicago medical college, and John Woolenbrogh, his assistant, started from the college for the Potter's field yesterday with a wagon load of bodies in various stages of decomposition and dismemberment. The roads are in bad condition, and the wagon got stuck in the mud near the corner of Diversity street and Ashland avenue. The men dumped the load in the street and drove back to the college.

The sight was a ghastly one. There were some heads, a trunk in one heap, and feet and hands were lying scattered around in various directions. A crowd of 2,000 men congregated on the spot and the police soon arrived on the scene. Several citizens and officers followed the trail of the wagon and then men were arrested. The indignation of the crowd ran high, and for a while it was feared that violence would be done to the prisoners, but they were safely conducted to police headquarters.

REVOLT AGAINST PROHIBITION.

A Constable Brutally Assaulted by Liquor Dealers.

BURLINGTON, Iowa, April 15.—An open revolt against the prohibitory law occurred in this city Monday. A constable named Green, who has been a searcher in connection with Squire Stahl's justice court at Mediapolis, came to Burlington and, with three deputies, began operations by searching the place of one Hirschberg.

Before he finished reading his warrant he was surrounded by an organized band of about forty well-known liquor dealers who administered a terrible beating. Green's skull was fractured, his nose broken and one eye nearly put out. His three deputies deserted him at the first blow and escaped from the crowd. Green was warned not to return on a similar errand.

WANTS HEAVY DAMAGES.

An Atlanta Clothing Merchant Sues a New York Firm.

NEW YORK, April 15.—Stephen A. Ryan, of Atlanta, Ga., one of the largest wholesale clothing merchants of the south, has begun proceedings against Nathan J. and Henry J. Schloss of this city in a suit for \$100,000 damages for alleged conspiracy to injure his business reputation.

Mr. Ryan claims that Schloss & Company, to cover an alleged claim, attached goods of his, bought elsewhere which were in transit to Georgia, and refused to release this attachment unless he furnished a \$2,500 bond. The news of this action, he declares, has spread among the trade to the detriment of his credit. He attributes this action to a conspiracy to ruin his business reputation.

Lynchers Foiled.

SOMERSET, Ky., April 15.—Brakeman James A. Cruse was shot in the leg Monday morning by a negro tramp and thief whom he had ejected from the train at Happy Hollow, in this county. The negro escaped, but was afterwards captured by Officer William Bates, of this city. When captured the negro gave his name as Will. White and his residence New Orleans. He boarded the train at Oakdale. When arrested he had a pistol in hand and another on his person and a large number of keys. When the officer arrived here with the negro the railroad men attempted to rescue the negro to lynch him, but the officer evaded them and succeeded in getting the prisoner in jail.

Wine Makers Combine.

SAN FRANCISCO, April 15.—Wine makers of the west side of Santa Clara valley have formed an association to secure better prices for their output. They will erect a cellar, winery and distillery in which they will handle the wines of members who have no facilities of their own. They will establish agencies here and in the east, and will deal directly with consumers and retailers. Similar organizations are being formed in the eastern portion of the valley. Delegates have been appointed to visit other wine sections and urge the vineyardists to organize. The meeting will be held at Cupertino next Thursday to perfect plans for disposing of the coming vintage.

Columbian Exposition President.

CHICAGO, April 15.—William T. Baker, of the board of trade firm of William T. Baker & Company, was unanimously elected president of the world's Columbian exposition last night to succeed Lyman J. Gage. Mr. James W. Scott, publisher of The Herald, who had previously been tendered the nomination, renewed his statement to the committee on nominations yesterday afternoon that he would be compelled to decline the office even if elected.

Mangled in a Tunnel.

NEW YORK, April 15.—The body of a man, crushed and mangled was found lying on the tracks of the New York Central and Hudson River railroad in the tunnel, between Fifty-fourth and Fifty-fifth street, yesterday morning. He had been run over by a train. His clothing indicated poverty. It is supposed that he was homeless and went into the tunnel to sleep. There were no papers or other clues to the man's identity found on his person. The body was removed to the morgue.

Attorney Grant's Report.

NEW ORLEANS, April 15.—United States District Attorney William Grant, who some days ago was intrusted by the attorney general at Washington with the important work of gathering information and compiling a report touching the recent uprising in New Orleans, says, in answer to inquiries regarding the subject, that he expected to be able to forward his report to Washington by the latter part of the present week.

Cattle Sheds Burned.

PITTSBURGH, April 15.—One hundred and thirty-seven head of cattle and three acres of the sheds at the East Liberty stock yards were destroyed by fire at an early hour yesterday morning. The origin of the fire is unknown. The loss will not exceed \$22,000, of which \$15,000 is credited to the sheds, property of the Pennsylvania railroad, and the rest to cattle. The cattle stampeded and rushed into the flames.

SEAL TAKING BEGUN.

And the Thieves Will Soon Be in Behring Sea Again.

WASHINGTON, April 15.—F. B. Gregory, of Victoria, B. C., is in Washington. He has been at Sitka collecting evidence in the Sayward case. Just before he left Victoria a schooner, with an Indian crew, came in with 1,300 seal skins, which sold for \$15,000 cash. All the sealing vessels are at work now along the west coast, and will be in the Behring sea shortly. The British government has not issued instructions to the sealing captains that the season is to be a closed one, pending negotiations between the United States and Great Britain. Most of them would take chances even if such instructions had been issued. Mr. Gregory thinks seals are increasing in numbers. The Indian seal hunters at Victoria have struck for higher wages, which may affect the catch materially, as they are very expert.

Death of a Pioneer.

MUNICH, B. D., April 15.—William Moore, aged 72, a half-century resident of this city, died yesterday. Upon celebrating his last birthday, he issued a challenge to run a race with any man of his age in the state, for any amount. He was the father of Willie Moore, the little acrobat.

A Snake That Eats Eggs.

"The funniest snake I know anything about is one found in Africa, which lives upon eggs," said Osteologist Leues. "It has a curious projection downward from its backbone, just behind the head, which is like a tooth, the extremity being actually tipped with enamel. This toothlike appendage has a most important function with relation to the creature's method of getting a living, and it would be difficult to find a more astonishing illustration in nature of the adaptation of structure to necessity."

"When the snake swallows an egg the latter is passed down through the gullet until it encounters the sharp tooth I have spoken of, which breaks the shell. Thus, not only is the food rendered easy for immediate digestion, but no portion of the fluid contents is lost, as would be the case if the snake were obliged to bite into the egg with its mouth fangs."

"It seems surprising how many snakes are able to swallow animals bigger than themselves until it is considered how particularly well nature has adapted to the purpose the structure of their jaws. The lower jawbone, instead of being in a single piece, is merely connected in front by an elastic ligament, so that the two halves are capable of great extension. Again, the halves of the lower jawbone are attached to the skull very far back, so that the animal can make an enormous gap.—Washington Letter.

There is one applicant for a pension who deserves to have her claim pushed to the front. This is Mary E. Dewey, of Goshen, Ind., who served through the civil war disguised as a man in the Twenty-sixth Ohio regiment under the alias of Charles Dewey. She now applies for a pension under her real name.

Chamberlain's Cough Remedy the Best of All.

LATROBE, PA., Jan. 27, 1891. Messrs. Chamberlain & Co., Des Moines, Iowa, Gentlemen: You have helped me considerably with a good medicine and splendid advertising. Chamberlain's Cough Remedy is the most popular cough medicine I handle.

Mrs. Griffith, wife of Supt. of the Latrobe steel works, always has your Cough Remedy in her house. I persuaded her to try it months ago; yesterday sold her the fourth bottle.

Samuel Osborne, a prominent contractor, tells me: "John MacMillan, you can't say too much for Chamberlain's Cough Remedy. Say all you can and I will put my name to it."

"Mr. MacMillan you remember asking me to try, just to try, a bottle of Chamberlain's Cough Remedy for that terrible cough which I carried for months. Well! That cough is gone. Oh! My name is Miss Weiss."

Mr. Jos. Barnett, our bank cashier, had a tickling in his throat for four or five nights: "Mac," one dose only of Chamberlain's Cough Remedy and I slept until morning."

Gentlemen, these are samples of hundreds that I know.

Think of the vast number of cough cures sold. Chamberlain's Cough Remedy excels them all. Sincerely yours, Jno. C. MacMillan.
